WHOLESALE PRICE LIST 3536

SEASON 1935-1936

November 15, 1935

PLEASE NOTE

All summer prices and other quotations not accepted to date are hereby cancelled.

Prices. All prices herein are strictly net, to the trade only and for goods at our nursery unless otherwise stated. This list means what it says both as to prices and terms and we do not deviate from it.

Terms. To buyers of known or established credit, 60 days from date of invoice. Otherwise cash with order or 25% with order, balance C. O. D.

Quantities. Five or more plants of one kind and size will be supplied at 10 rate; 25 or more at 100 rate; for less than 5 of one kind and size add 20% to 10 rate.

Grading. Plants that are wider than tall are graded by width.

Packing. At cost as usual, including paper pots if used. Plants will be packed to secure lowest possible freight classification consistent with the nature of the goods shipped. Packing free if cash comes with order.

Pots. Prices of pot-grown stock do not include pots and unless otherwise instructed plants will be shipped without them. If wanted in the pots they will be charged for at cost, but may be returned and credit will be given.

Shipping. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight or express and where water shipment is possible be sure to specify by water or rail as you may prefer.

Other Stock. This list covers stock for shipment from our San Jose Nursery. We also act as selling agents for several other growers so shall be glad to have inquiries for any material grown on the Pacific Coast but not listed herein.

Complaints. Must be made within 10 days after buyer receives the goods.

This firm is a member of
CENTRAL CALIFORNIA NURSERYMEN'S ASSOCIATION.
PACIFIC COAST ASSOCIATION OF NURSERYMEN.

Novelties and Scarce Items

Special attention is called to the following interesting lines. Sizes, prices and brief descriptions in the corresponding divisions of this list.

CONIFERS

CEDRUS atlantica aurea
CEDRUS atlantica glauca
CEDRUS deodara compacta
CEDRUS deodara fontinalis
JUNIPERUS chinensis torulosa
JUNIPERUS squamata meyeri
SEQUOIA gigantea pendula
SEQUOIA sempervirens argentea

BROAD LEAVED EVERGREENS

ABELIA floribunda, schumanni and triflora
BRUNFELSIA floribunda
CISTUS purpureus
COTONEASTER decora
CYTISUS "Pomona"
EUCALYPTUS, new flowering kinds
ILEX—Grafted Hollies
OSMANTHUS delavayi
PYRACANTHA formosana splendens
PYRACANTHA rogersiana aurantiaca
RAPHIOLEPIS indica rosea

FLOWERING FRUIT TREES

CHERRIES, Japanese Flowering

DECIDUOUS TREES

LABURNUM vossi

DECIDUOUS SHRUBS

CYDONIA, Japanese Flowering Quince
(many new kinds)
MAGNOLIA, deciduous kinds
SYRINGA, Named Lilacs
VIBURNUM carlesi

CLIMBERS

HARDENBERGIA "Hardy Violet"
JASMINUM stephanense
WISTERIA, Climbing and Standards

Lining Out Stock

Although we have considerable material of this class, particularly high grade grafted conifers, we have decided not to include it here but to issue a special list of it along toward spring. If you want a copy and do not receive it by February 15, please ask for it. Should you wish quotations sooner we will gladly give them on request.

Abbreviations

It is important for buyers to know whether they are getting seedlings or cuttings, etc., so we have shown how every item was propagated using the following abbreviations:

B—budded
C—cuttings

G—grafted
S—seedlings

Novelty

Abelia Floribunda

RED ABELIA

This sensational novelty was introduced last year.

Habit spreading with erect shoots; maximum height probably not over 4 ft., leaves evergreen, small and handsome; flowers enormous compared with other Abelias, trumpet-shaped and from 1½ to 2 inches long (illustration is slightly less than natural size); color bright rose red.

Bears an unbelievable profusion of bloom and well deserves the name "floribunda."

Experience has shown that it prefers moisture and shade and probably will not thrive well in hot dry climates except when given plenty of shade and water.

As yet we are unable to say how much cold it will stand but believe it will be nearly if not quite as hardy as other Abelias.

Where conditions are specially favorable it blooms continuously. One good specimen in San Francisco has never been without flowers for the last two years.

		10 rate	100 rate
4 in. pot 1	to 1½ ft.50	.45
4 in. pot 8	to 12 in.40	.35
2½ in. pot25	.20

Conifers

NOTE: A large portion of our conifers are grafted on seedling roots which gives them a far better root system than when grown from cuttings.

Unless otherwise stated all plants in this section will be balled at prices quoted.

2 to 2½ ft. G.....	1.10	
4 in. pot 2 to 2½ ft. G.....	.50	.45

lawsoniana stewarti,

WINTERGOLDEN CYPRESS

One of the very best conifers we grow. Entirely golden hued. Color holds throughout the year. In winter when Golden Arbor Vitaes turn green, its golden color is at its brightest.

6 to 7 ft. G.....	5.00	
5 to 6 ft. G.....	4.00	
gal. can 1½ to 2 ft. G.....	.50	.45
4 in. pot 2 to 2½ ft. G.....	.50	.45
4 in. pot 1½ to 2 ft. G.....	.40	.35
4 in. pot 1 to 1½ ft. G.....	.35	.30

CONIFERS

CHAMAECYPARIS (continued)

lawsoniana wisseli, WISSEL CYPRESS

Growth narrow and erect. Foliage moss-like.
Color very rich, metallic sage or silvery green.
Rare and beautiful.

7 to 8 ft. G.....	6.00	
6 to 7 ft. G.....	4.50	
5 to 6 ft. G.....	3.50	
gal. can 1½ to 2 ft. G.....	.65	

nootkatensis glauca,

SILVER NOOTKA CYPRESS

Growth erect and branching. Foliage silvery.

8 to 9 ft. G.....	4.50	
6 to 7 ft. G.....	3.50	
4 to 5 ft. G.....	2.25	

pisifera aurea,

GOLDEN SAWARA RETINOSPORA

Very graceful habit. Foliage fine. Golden color holds well all year.

7 to 8 ft. G.....	4.50	
6 to 7 ft. G.....	3.50	
5 to 6 ft. G.....	3.00	

CUPRESSUS macrocarpa lutea,

GOLDEN MONTEREY CYPRESS

gal. can 4 to 5 ft. G.....	.85	
gal. can 3 to 4 ft. G.....	.75	.65

chinensis columnaris,

COLUMNAR CHINESE JUNIPER

7 to 8 ft. G.....	3.50	
6 to 7 ft. G.....	3.00	
5 to 6 ft. G.....	2.25	
4 to 5 ft. G.....	1.75	
gal. can 1½ to 2 ft. G.....	.45	.40

chinensis pfitzeriana, PFITZER JUNIPER

1½ to 2 ft. G.....	1.00	
gal. can 1 to 1½ ft. G.....	.40	.35

chinensis torulosa, HOLLYWOOD JUNIPER

A most beautiful variety of narrow, erect growth with wavy outline. Foliage rich green. Highly attractive. Popular in So. Calif. and well deserves wide distribution.

7 to 8 ft. G.....	4.00	
6 to 7 ft. G.....	3.50	
4 to 5 ft. G.....	2.25	2.00
3 to 4 ft. G.....	1.50	
gal. can 2 to 2½ ft. G.....	.75	
4 in. pot 1 to 1½ ft. G.....	.40	.35

conferta, SHORE JUNIPER

A very beautiful new and completely prostrate Juniper. Easily the best creeping form.

1½ to 2 ft. G.....	.80	.75
1 to 1½ ft. G.....	.70	.65

japonica (J. chinensis procumbens),

JAPANESE CREEPING JUNIPER

gal. can 1 to 1½ ft. C.....	.40	.35
-----------------------------	-----	-----

japonica albovariegata

A variety of Chinese Creeping Juniper with white variegation. Scarce.

1½ to 2 ft. G.....	1.25	1.00
4 in. pot 8 to 12 in. G.....	.50	.45

japonica aureovariegata

A variety of Chinese Creeping Juniper with yellow variegation. Scarce.

1½ to 2 ft. G.....	1.25	1.00
1 to 1½ ft. G.....	1.00	.85
4 in. pot 8 to 12 in. G.....	.50	.45

BROAD LEAVED EVERGREENS

	10 rate	100 rate
BORONIA elatior		
A beautiful but little known shrub. Foliage finely cut and very fragrant. Flowers like large rosy pink heather blooms practically cover the plant for a long period.		
4 in. pot 8 to 12 in. C.....	.30	
BRUNFELSIA floribunda (B. calycina)		
Among the best novelties in years. Shrub of erect, slow growth with foliage about like California Privet. Flowers about the size and shape of Vinca, open deep violet and last about a week. They gradually change to pure white and as the color lightens, the rich fragrance is intensified. It has a tremendous spring crop of flowers and scattering the rest of the year except in mid-winter. The presence of violet, lavender and white flowers at the same time adds to the striking effect. It is solanaceous and its fragrance, which seems identical with our native "Blue Witch," will perfume the neighborhood. We can supply this from either San Jose or Los Angeles.		
Stock at San Jose.		
gal. can 15 to 18 in.70	
Stock at Los Angeles. (Can be picked up there or shipped.)

We have specimen field grown plants of nearly all Cotoneasters, top grafted and trained as "Standards". Details of sizes and prices on request.				
CYTISUS canariensis				
qt. can 4 to 5 ft. C.....			.20	
Irish Hybrid Brooms				
4 in. pot 8 to 12 in. S.....			.35	
Mitchell Hybrid Brooms				
During the past summer we took advance orders for a set of five new hybrid Brooms developed, selected and named by Sydney B. Mitchell, the well-known horticultural writer. Unfortunately for those who did not order early, all are now sold except one variety which, being a very strong grower, gave more propagating wood than the others:				
Pomona. Growth is vigorous and tall with arching stems. Flowers display a brilliant blending of several colors: "standards" are yellow paling to white on the front but rose on the reverse; "wings" have a striking tint of amber orange; "keel" is clear yellow. Plants offered are very strong and should bloom freely next spring, making them easy and quick sellers.

cornuta, CHINESE HOLLY		
Becoming quite popular owing to its ability to thrive in the hot interior valleys where it is difficult to succeed with English Holly. The female plants bear an excellent crop of large dark red berries.

FLOWERING FRUIT TREES

FLOWERING PEACHES

Mandarin

This delightful dwarf variety is only a shrub unless top-grafted. Foliage dark and nearly evergreen but it drops in time to avoid obscuring the solid mass of double red flowers whose color is probably the richest shade of red in the whole range of F. F. trees.

Lilacs

Named Varieties

We have tested about 150 varieties and have gradually eliminated all but the very best sorts. All are grown by budding and as we pinch them when only a few inches tall they are all well branched and practically all bloom from first season on.

Sizes available for each variety are indicated by letters A, B, C, etc., following names in variety list below.

SPECIAL LIST

GROUP A

1 to 1½ ft.50

Mme. R. Goyer, single. Buds violet; flowers lilac.

Pres. Lincoln, single. Buds purple-lilac, opening to wedgewood blue. Some judges consider this the finest of all lilacs and certainly the best blue to date.

GROUP B

A 6 to 7 ft.	2.00	1.75
B 5 to 6 ft.	1.50	1.25
C 4 to 5 ft.	1.10	1.00
D 3 to 4 ft.85	.75
E 2 to 3 ft.70	.60
F 1½ to 2 ft.50	.45
G 1 to 1½ ft.40	.35

Double Flowered

Katherine Havemeyer, buds mauve, flowers lilac blue
CDEG

Mme. Lemoine, Pure white; mid-season. G

Montaigne, pinkish mauve. Large clusters. EFG

My Favorite, mauve blue. CDEFG

Single Flowered

Buffon, mauve pink. Large clusters. Fine for cutting. G

De Miribel, violet, long clustered. EFG

Diderot, buds almost black; flowers purple, long. DEF

Dr. Lindley, lilac-purple. CDG

Edmond Boissier, dark bluish-purple. BCDEF

Jan Van Tol, snow white. FG

Mme. Francisque Morel, reddish purple, enormous clusters. G

Mont Blanc, snow white, fragrant. G

Volcan, darkest purple, late. FG

Syringa japonica, (Japanese Tree Lilac). Makes a tree and is latest of all to bloom—in late May or June here. Flowers are white in immense compound panicles 18 to 24 in. long. Blooms when other flowers are scarce. DEFG

GENERAL LIST

A 6 to 7 ft.	1.75	1.50

Grafted Wisterias

All stock offered below is bench grafted and grown in open ground, not staked, to the age specified not counting the year they were grafted. We grow our Wisterias for blooming qualities, not for a mass of useless wood. For this reason most of them start blooming at once.

WISTERIA multijuga longissima EXTRA LONG JAPANESE WISTERIA		
3 year	1.50	
2 year #190	.80
2 year medium75	.70

GENERAL COLLECTION

4 year	2.25	
3 year	1.35	1.25
2 year80	.75
1 year selected60	

floribunda violacea plena,
DOUBLE VIOLET WISTERIA
1, 2 and 3 year

multijuga, JAPANESE WISTERIA
1 & 2 yrs.

multijuga alba, WHITE JAPANESE WISTERIA
1 and 2 year

multijuga rosea,
PINK JAPANESE WISTERIA

1, 2, 3, & 4 yrs. These are genuinely pink. There seem to be inferior strains of so-called pink wisterias. All our propagation is from our own blooming plants which bear beautiful pink flowers in long clusters.

CLIMBERS

GRAFTED WISTERIAS (continued)

sinensis alba,
WHITE CHINESE WISTERIA
 1, 2, 3, and 4 yrs.

venusta alba

SILKY WHITE WISTERIA

1 and 2 year. Flowers very large, chalk white, fragrant. Clusters short.

var. *Mrs. McCullagh*

1 & 2 yrs. only. A rare and beautiful variety. Flowers large purple in compact clusters. The wood is very short-jointed making this the best variety where space is limited.

SPECIAL LIST

3 year	1.50
2 year	1.25
1 year85

All except the last variety below have been propagated from plants imported under U. S. D.A. special permit.

Beni Fuji (*W. sinensis rubra*)

1 and 2 year. Imported from Japan under this name, but belongs to *multijuga* section. Entirely distinct from *W. multijuga rosea*. Flowers a soft shade of pink in well filled clusters of moderate length.

Issai, (*W. multijuga praecox*)

1 and 2 year. Profuse and young blooming. *Multijuga* type; color deeper than *multijuga*. Very good.

Jako, Chinese type.

1 and 2 year. Very fragrant and blooms very young. Pure white.

Kyushaku, *Multijuga* type.

1 and 2 year. Very long clusters which extend over 4 feet. Very handsome flowers of a beautiful purple color.

Nankingensis, MINIATURE WISTERIA.

1, 2 and 3 years. Has very small leaves, almost dwarf; flowers unknown as yet.

venusta violacea

1 and 2 year. A purple counterpart of *W. venusta alba*.

STANDARD WISTERIAS

A splendid novelty we recently put on the market. Stems are about 4½ to 5 ft. tall.

The "heavy" stock consists of strong plants several years old.

The "regular" stock has strong stems and well developed heads.

The "light" stock is simply a start in the right direction but with stem of full height and head commencing to form.

A heavy	3.00	
B regular	1.60	1.50
C light	1.25

regular	2.00

SPECIMEN PLANTS; Pink Only.

very large specimens	\$6.00 to \$9.00 each
Extra heavy	\$4.00 to \$6.00 each

Roses

We grow bush and climbing roses extensively, but advance orders have been so heavy that we do not wish to make further sales until orders on hand have been filled. We will then issue new list of what is still available. If interested ask for copy.

As for Standard Roses we are so nearly sold out that it doesn't seem worth while to list them, although we can still supply No. 1 grade in a few of the best kinds at 10 rate of \$1.15. Either leave assortment to us or specify colors only. We grow only the finest varieties.

Miscellaneous

CORDYLINE (Dracaena)				10	100
				rate	rate
10	to	12	ft. \$6.00 up each		
8	to	10	ft. \$4.00 up each		
5	to	6	ft. S.....	2.00	
4	to	5	ft. S.....	1.50	
4 in. pot	2	to 3	ft. S.....	.30	.25

"Triplets"

There is a strong demand for Dracaenas with more than one trunk. These were grown by planting 3 together in a triangle about a foot apart so that they can be dug and planted as one clump.

6	to	7	ft. S.....	3.50	
5	to	6	ft. S.....	3.00

WOODWARDIA radicans
We can supply collected Woodwardia Fern roots @ \$6.00 per 100; \$3.50 per 50.
No shipment less than 50.

Bird's IMPROVED NEPONSET Flower Pots

We are agents for Bird & Son's famous Neponset Paper Pots. The green pots, now greatly improved, are used for growing and the red (same as we use ourselves) for shipping.

Prices on green pots are at factory in Mass. Freight via Panama Canal is slight.

Prices on red pots are effective for shipments after January 1st, 1936, and include the freight charges to any point in U. S. A. if ordered for shipment direct from factory. Otherwise f. o. b. San Jose. All prices are for unbroken case lots.

Size	Quantity per case	Weight per case	Price per 1000	
			Green	Red
2 inch	1000	14 lbs.	\$ 5.45	\$ 3.65
2½ inch	1000	22 lbs.	6.30	4.10
3 inch	1000	28 lbs.	7.10	5.10
4 inch	500	26 lbs.	10.55	8.00
5 inch	500	44 lbs.	14.80	10.50
6 inch	500	62 lbs.	20.00	14.00
